Re: Oconee Nuclear Station
Docket Nos. 50-269, -270, and -287

Dear Mr. Dicker:

In my letter of November 6, 1974 to Mr. Angelo Giambusso, I requested certain changes to Oconee Nuclear Station Technical Specification 4.11, "Environmental Surveillance." In response to a telephone request for clarifying information concerning the proposed changes to Table 4.11-1, the following information is provided:

1. The TLD at 002.1 should be at 002 which is the location preoperationally and would have remained at 002 but for a typographical error.
2. Location 003 has remained the same although Hwy. 15 has been renamed Hwy. 188.
3. Location 005 has remained the same with a change of wording - "on" to "off".
4. Location 014 has remained the same but R. W. Gudger's office is no longer at this location so it has been redescribed as "Old Hwy. 183 at Lake."
5. An asterisk was inadvertently omitted from the commercial crop sampling for Location 015. At present no commercial crops are grown within the five-mile radius of the station; the asterisk indicates that these crops might not be available, but would be sampled if available.

Very truly yours,

A. C. Thies
