Dear Sir or Madam:

Floyd Memorial Hospital will be transferring its control of its Byproduct Materials License, Number 13-12371-01. In accordance with Appendix G of NUREG 1556, Volume 9, Revision 2, please accept the following description of the transfer of control:

1. The transaction will be a full asset purchase and will be final as of 10/1/2016. The new facility name will be Baptist Healthcare System, Inc. d/b/a Baptist Health Floyd
2. There will be no changes in personnel or duties in regards to the transfer of control. The Radiation Safety Officer and Authorized Users will remain the same.
3. There will be no changes in the organization, location, facilities, equipment, or procedures that relate to the licensed program.
4. The surveillance program that is currently in place complies with USNRC regulations. Daily radiation surveys, weekly radioactive contamination surveys, quarterly sealed source inventory and leak tests, and personal dosimetry are currently performed. The transfer of control will not alter the current surveillance program.
5. We confirm that all records concerning the safe and effective decommissioning of the facility will be maintained at the current address of use listed on License Number 13-12371-01. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity. If the License is terminated in the future, the records will be transferred to Baptist Healthcare System Inc., or the USNRC, as appropriate.
6. We confirm that the transferee will abide by all constraints, conditions, requirements, and commitments of the transferor.

If there are any questions concerning this license amendment, please contact **Scott Adams**, RSO directly at 812-949-5516

Sincerely,

A handwritten signature in black ink that reads "Mark Truman".

Mark Truman

Vice President of Operations of Floyd Memorial Hospital
