Re: Change in an amendment request – Mail Control number 591529

On 25 July, Research Medical Center, holder of license number 24-18625-01, asked to amend this license to add a new authorized user, add two authorized medical physicists and change its Y-90 microsphere program to conform to Revision 9 of the Y-90 microsphere licensing guidance. We must now delete the requested authorized user.

Nevine Hanna, M. D. was to become an authorized user under this license, starting work in September. She has changed her plans and is pursuing other options. Therefore, we no longer need to add her to the license.

Should you need any further information, please feel free to contact us at (816) 276-4449.

Sincerely,

A handwritten signature in cursive script that reads "Stephen T. Slack".

Stephen T. Slack, Ph. D.
Radiation Safety Officer
