Nuclear Regulatory Commission Headquarters  
Office of Nuclear Security and Incident Response  
Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

To Whom It May Concern:

Enclosed is the final After Action Report/Improvement Plan for the Three Mile Island Nuclear Generating Station (TMI) Medical Services (MS-1) Drill that was held on March 24, 2016. The First Aid and Safety Patrol (FASP) Emergency Medical Services Squad and Good Samaritan Hospital participated in the drill.

There were no Level 1 Findings, Level 2 Findings, or Planning Issues identified during the drill.

Based on the results of the exercise and a review of the offsite radiological emergency response plans and procedures submitted, FEMA Region III has determined they are adequate (meet the planning and preparedness standards of NUREG-0654/FEMA-REP-1, Revision 1, November 1980, as referenced in 44 CFR 350.5) and there is reasonable assurance they can be implemented, as demonstrated during this exercise.

If you have any questions, please contact Thomas Scardino at (215) 931-5546.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Tierney".

MaryAnn Tierney  
Regional Administrator
