RE: Notice of Intent to eliminate security officer's presence at the Ambrosia Lake Facility License Number SUA-1473

Dear Mr. Whited,

Rio Algom Mining LLC (RAML) wishes to inform the Nuclear Regulatory Commission of RAML's intent to eliminate site security officer's presence at the Ambrosia Lake Facility effective August 31, 2016. The rationale for this action is that most if not all of the licensed radioactive material has been consolidated and covered in accordance with NRC approved plans. RAML recently completed all of the decommissioning and demolition of all the structures at the site. Site (LTSM) protection measures into the future will consist of barbed wire fence with locked gates and appropriate signage. Gates will be inspected on a monthly basis.

Please contact me at (209)736-4803 with any questions.

Best regards,

Rio Algom Mining, LLC
