Audit Report

AUDIT OF NRC'S PROCESS FOR CALCULATING LICENSE FEES

OIG-13-A-02

Status of Recommendations

Recommendation 1: Prepare and document an annual fee rule validation (budget vs. cost analysis) and make adjustments as needed to the fee calculation process.

Agency Response

Dated August 12, 2016:

Agree. OCFO plans to execute the validation of the hourly rate by the end of quarter two of Fiscal Year (FY) 2016. The revised key milestones for this recommendation are listed on the next page. OCFO, Division of Planning and Budget (DPB) successfully accomplished the first key milestone of understanding the previous methodology used to validate the hourly rate for the annual fee rule. In addition, OCFO has completed the second milestone, development of the Fees Validation Report (Report). Specifically, DPB performed the following procedures (milestones one and two):

- Conducted interviews and meetings with key agency staff responsible for calculating license fees from FY 2009 to present.
- Performed a detailed review of the procedures and corresponding spreadsheets for FY 2009 budget vs. cost analysis validation.
- Reviewed and analyzed the origin of the cost accounting data in the hourly validation analysis conducted prior to the implementation of the Financial Accounting and Integrated Management Information System (FAIMIS).
- Collaborated with financial system staff to evaluate data from the previous cost accounting system and developed a Report from FAIMIS.
- Performed user acceptance testing (UAT).

OCFO staff noticed during UAT that the parameters for the report were not effective in producing accurate data. OCFO staff is currently updating the report parameters in order to develop a revised report that will provide the data necessary to perform the validation. Once the revised report has completed UAT satisfactorily, OCFO will perform the
