SUBJECT: REQUEST FOR CONSENT TO DIRECT LICENSE TRANSFER

By letter dated June 7, 2016, Midwest Medical Center submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to a direct License Transfer of NRC Materials License No. 21-26168-01. Based on the information you provided, we understand that as a result of a proposed transfer of control Midwest Medical Center, will directly be transferred to Molina Medical Management, Inc. and the licensee's name will be Molina Medical Group of Michigan. We further understand that this transfer will not result in any change to licensed materials, persons using the license material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the proposed transfer. Also enclosed is Amendment No. 11 changing the name on the license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter and the enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".

Toye L. Simmons
