Re: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Mr. Moseley:

Our letter of January 25, 1977 transmitted sample record sheets submitted pursuant to the Radioactive-Effluent Split Sampling Program for the Oconee Nuclear Station. A review of the record sheets has shown that sample number 2, which was taken on September 30, 1976, has a typographical error under the results section. The correct number for the results recorded for the alpha analysis of sample number 2 is  $<1.99 \text{ E-08 } \mu\text{Ci/ml}$  instead of the reported number  $<1.99 \text{ E-03 } \mu\text{Ci/ml}$ .

Very truly yours,

  
William O. Parker, Jr.
