

August 16, 2016

Dr. Jeffrey Geuther, Manager  
KSU Nuclear Reactor Facility  
Department of Mechanical and  
Nuclear Engineering  
112 Ward Hall  
Kansas State University  
Manhattan, KS 66506-5204

SUBJECT: EXAMINATION CONFIRMATION, NO. 50-188/OL-16-03, KANSAS STATE  
UNIVERSITY

Arrangements have been made with Dr. Jeffrey Geuther for the administration of operator licensing examinations at the Kansas State University Nuclear Reactor. The examination is scheduled for September 1, 2016.

All reference material has been received and all arrangements for the examination have been made.

Signed operator license applications in accordance with 10 CFR 55 Subpart D, "Applications", certifying that all applicants have successfully completed the facility licensee's requirements to be licensed as an operator or senior operator and that all applicants meet the medical requirements, must be submitted at least 14 days before the start date of the examinations. This will allow the chief examiner time to review and process the applications. If this review cannot be completed in time to decide an applicant's eligibility, that applicant will not be permitted to sit for the examination. Therefore, it is recommended that license applications be timely provided to ensure an appropriate level of review.

The NRC has posted copies of the application forms, "Personal Qualification Statement—Licensee" (NRC Form 398) and "Certification of Medical History by Facility Licensee" (NRC Form 396) on the agency's Web site at [www.nrc.gov/reading-rm/docollections/forms/nrc398.pdf](http://www.nrc.gov/reading-rm/docollections/forms/nrc398.pdf) and [www.nrc.gov/reading-rm/doc-collections/forms/nrc396.pdf](http://www.nrc.gov/reading-rm/doc-collections/forms/nrc396.pdf). These forms are in Adobe Acrobat® format.

This letter contains information collections requirements that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval numbers 3150-0018 and 3150-0024.

The burden to the public for these mandatory information collections is estimated to average 3.03 hours per combined response for completing the information collections. Send comments regarding this burden estimate or any other aspect of these information collections, including suggestions for reducing the burden, to the Records and FOIA/Privacy Services Branch (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail to [INFOCOLLECTS@NRC.GOV](mailto:INFOCOLLECTS@NRC.GOV); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.

If you have any questions regarding the examination procedures and requirements, please contact me at (301) 415-5656, or email at [paulette.torres@nrc.gov](mailto:paulette.torres@nrc.gov).

Sincerely,

**/RA/**
