NRC Docket No. 50-285

SUBJECT: Emergency Planning Changes

In accordance with 10 CFR 50.54(q), the Omaha Public Power District submits a report of each such change made including a summary of its analysis. This change was reviewed and does not constitute a reduction in effectiveness.

No commitments are made in this letter.

If you have any questions regarding the enclosed changes, please contact Mr. Eric Plautz at 402-533-7308.

Sincerely,

Bradley H. Blome
Manager – Site Regulatory Assurance

Document Change Summaries:

EP-FC-112-100-F-04 CR Dose Assessment Specialist Checklist

Clerical correction to position binder tab index: corrected document number and title listed before tab 1. This is an editorial change as it does not alter or change the subject intent or compliance with the Emergency Plan and there is no reduction in effectiveness.

EP-FC-112-100-F-06 ERO NOTIFICATION OR AUGMENTATION

Formatting errors in document – reissued as revision 0: step numbers with no information were deleted. This is an editorial change that does not alter or change the intent, purpose or order of the procedural steps or compliance with the Emergency Plan and there is no reduction in effectiveness.

EP-FC-112-200-F-29 Electrical / I&C Systems Engineer Checklist

Clerical correction – wrong procedure listed on position binder tab index. Corrected document number and title listed before tab 1. This is an editorial change as it does not alter or change the subject intent or compliance with the Emergency Plan and there is no reduction in effectiveness.

EP-FC-112-200-F-30 Secondary Systems Engineer Checklist

Clerical correction – wrong procedure listed on position binder tab index. Corrected document number and title listed before tab 1. This is an editorial change as it does not alter or change the subject intent or compliance with the Emergency Plan and there is no reduction in effectiveness.

EP-FC-112-400-F-21 Field Team Specialist Checklist

Include reference to and inclusion of Attachment 4 of EP-FC-110-200, DOSE ASSESSMENT, as a tab to enable the Field Team Specialist to calculate airborne activity. This change enhances the ability of the user to perform the activity. Compliance with the Emergency Plan is still in place and there is no reduction in effectiveness.

EP-FC-112-F-01 COMMAND AND CONTROL TURNOVER BRIEFING FORM

Added EOF to step 5 as potential location to perform Event Classification and Emergency Exposure Controls. This was missing from the Fleet procedure as their Command and Control tasks are distributed differently. Compliance with the Emergency Plan is still in place and there is no reduction in effectiveness.

**EP-FC-112-F-09 EMERGENCY PUBLIC ADDRESS ANNOUNCEMENTS AND
EP-FC-113-F-07 FCS – SITE ASSEMBLY, ACCOUNTABILITY AND EVACUATION**

Clarified announcements to prevent possible confusion regarding pre-determined assembly areas that are consistent with Fleet stations, but not with FCS. This would be considered an editorial change as it is a correction of location description. The intent of the procedure is still in place; compliance with the Emergency Plan is consistent; and there is no reduction in effectiveness.
