Scott:

I have spoken with ORAU who performed the verification survey during the last inspection. ORAU suggested, and I agree, that it would be beneficial for you to wait for the ORAU verification report and their findings before responding to the RAI's. Therefore, you can disregard the 30 day timeframe from the receipt of the July 5, 2016, RAI letter. The due date will be 30 days from the receipt of the verification report, once it gets published. After that, we can discuss if Uranium One will need additional time to respond.

Ron

**Subject:** [External\_Sender] RAI's for Irigaray Mine Unit 1-9 Final Status Decommissioning Report

Ron

As discussed with you briefly during the recent NRC inspection at the Willow Creek facility, Uranium One will not be able to respond to the Irigaray Mine Unit 1-9 Final Status Decommissioning Report RAI's within 30 days of receipt of the letter which was July 11, 2016. I would like to have a discussion with you next week on a time schedule for response. Uranium One is currently having discussions with contractor personnel that helped assemble the report to get a better feeling on a reasonable time frame for response.

If you have any questions please contact.

Regards,

**Scott Schierman** | HSE Manager
