Comments on Draft Regulatory Guide DG-1292, "Dedication of Commercial-Grade
Items for Use in Nuclear Power Plants," Docket ID NRC-2016-0133

Dear Ms. Bladey:

The NRC requested comments on a draft regulatory guide as noticed in the Federal Register (81 FR 44670; Docket ID NRC-2016-0133). The draft regulatory guide is DG-1292, "Dedication of Commercial-Grade Items for Use in Nuclear Power Plants."

The Nuclear Energy Institute (NEI) submitted industry comments on the draft regulatory guide in a letter dated August 30, 2016. Representatives from SNC have reviewed the comments submitted by NEI. SNC endorses those comments and wishes to emphasize NEI comment No. 10 in particular, where clarification of the draft regulatory guide would be beneficial to all stakeholders.

This letter contains no NRC commitments. If you have any questions, please contact me at 205.992.5998.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Justin T. Wheat".
