Re: James A. Fitzpatrick Pre-Exemption Emergency Plan Request from Entergy Nuclear Operations, Inc. for Approval to Eliminate Certain Emergency Response, letter from Nuclear Regulatory Commission dated July 25, 2016

Dear Mr. Anderson:

The FEMA Radiological Emergency Preparedness (REP) Program received a letter dated July 25, 2016 requesting FEMA's review of the licensee response organization staff changes contained in a proposed Fitzpatrick NPS Post-Shutdown Emergency Plan against the current State of New York and Oswego County REP Plans to verify that no potential impact exist based on plan wording.

In response, the FEMA Region II REP Program staff reviewed the proposed licensee staff changes to the James A. Fitzpatrick Emergency Operations Facility with the State of New York and Oswego County and can confirm that no potential impact exist based on plan wording in either Radiological Emergency Response Plan.

If you have any questions regarding this matter, please feel free to contact me at 202-646-2849 or Jesse King at 202-812-6936.

Sincerely,
