Subject: [External_Sender] Comments on Proposed William States Lee III Nuclear Station Site Expansion
Date: Wednesday, September 07, 2016 9:07:59 AM

To Whom It May Concern:

The Eastern Band of the Cherokee Indians Tribal Historic Preservation Office (EBCI THPO) would like to thank you for the opportunity to comment on this proposed section 106 activity under §36 C.F.R. 800.

It is the opinion of the EBCI THPO that the proposed undertaking will not result in any ground disturbing activities which might adversely affect any cultural resources or archaeological sites significant to the Cherokee people. As such, the EBCI THPO believes that the proposed project may proceed as planned. In the event that project plans change, or cultural resources or human remains are discovered, it is the request of the EBCI THPO that all work should cease, and this office contacted to continue government to government consultation as defined under Section 106 of the National Historic Preservation Act of 1966, as amended.

If we can be of further service, or if you have any comments or questions, please feel free to contact me at (828) 359-6854.

Sincerely,

Holly Austin
