Mr. Philip W. Noss
Licensing Manager
AREVA Federal Services LLC
505 S. 336th St., Suite 400
Federal Way, WA 98003

SUBJECT: CORRECTION OF SAFETY ANALYSIS REPORT - REVISION NO. 5 OF
CERTIFICATE OF COMPLIANCE NO. 9341 FOR THE MODEL NO. BRR
TRANSPORTATION PACKAGE

Dear Mr. Noss:

By letter dated June 26, 2015 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15188A084), as supplemented on January 26, 2016 (ADAMS Accession No. ML16054A510), May 26, 2016 (ADAMS Accession No. ML16168A266), and June 2, 2016 (ADAMS Package Accession No. ML16160A206), AREVA Federal Services LLC requested revision 5 to Certificate of Compliance No. 9341 for the Model No. BRR transportation package.

The staff is correcting the safety evaluation report (SER) (ADAMS Accession No. ML16204A337) corresponding to Revision 5 of CoC No. 9341 to further clarify the bases for staff's findings with respect to demonstrations required under 10 CFR 71.55(b) and 10 CFR 71.55(e). The staff did not make changes to Revision 5 of CoC No. 9341, therefore, CoC dated July 21, 2016, is still valid (ADAMS Accession No. ML16204A336).

The correction of the SER does not affect the approval of the package for shipment of radioactive material or for the package to be shipped in accordance with the provisions of Title 49 of the *Code of Federal Regulations* 173.471, "Requirements for U.S. Nuclear Regulatory Commission Approved Packages."

Upon removal of Enclosure 2, this document is uncontrolled.

P. Noss
