Subject: Oconee Nuclear Station

Docket Nos. 50-269, -270, -287

Dear Sir:

Please find attached Guidelines for Determining Core Damage at Oconee Nuclear Station for your review. This document is being submitted in response to your January 11, 1984 letter which transmitted the Safety Evaluation concerning Oconee's Post Accident Sampling System, NUREG-0737, Item II.B.3. This report is to satisfy the request for Duke to provide a plant specific procedure which includes other physical parameters in addition to fission product activities to provide a realistic estimate of core damage.

Very truly yours,

Hal B. Tucker
