REFERENCE: License # 06-00679-01 Amendment

To Whom It May Concern:

We request the following changes to our license:

A. New Authorized User

Please add Kevin G. Kett, MD as an authorized user. Dr. Kett is presently named on Waterbury Hospital License # 06-02406-01.

B. Removal of listed Authorized Users

Please remove the following individuals from our license:

1. Matthew Bushey, MD
2. Peter Chia-Gee Chien, MD

C. Discontinuation of the Use of the Dose Calibrator

By way of information, we have discontinued the use of a dose calibrator for measurement of patient doses at our Naugatuck Valley Surgery Site. The facility only uses low doses of Tc-99m for sentinel node surgery. Administered doses are in the form of unit doses, and the administered dose will be calculated for decay prior to administration.

D. Updated Cardiology Laboratory Facility

We have modified one dressing room by lining the walls with 1/16" of lead, provided a combination lock on the door, and added a small bench, cabinet, and L-Block. This room will be used for temporary handling and storage of patient doses, storage of a cobalt 57 sheet source, and short term storage of radioactive waste. Door will be kept locked when unattended. Please see attached drawing. Modifications are shown in green.

Please let us know if you require any additional information and thank you for your prompt attention to this matter.

Sincerely,

Chad W. Wable, FACHE
President and Chief Executive Officer
