Edward McGaffigan, Jr., Greta J. Dicus, Nils J. Diaz, Jeffrey S. Merrifield; Commissioners
U.S. Nuclear Regulatory Commission
Mail Stop O-16 C1, One White Flint North

Rockville, MD 20852-2738

Dear Commissioners,

I strongly urge you to deny Private Fuel Storage a license to construct a nuclear waste dump on the Skull Valley Goshute Reservation in Utah. The fact that 8 utilities can literally buy their way into building a private dump without any liability for accidents is a moral and scientific outrage. The nuclear industry is trying to find a political solution to a deadly environmental problem by targeting Native lands. Plus, the dump endangers all Americans by initiating the mass transportation of nuclear waste across the country to Utah. A license for the project would be a frightening injustice.

Sincerely,

Name Maria Clark
