

Tomas Herrera
SSD Team Leader
U.S. NRC
NMSS/MSTR/MSLB

September 13, 2016

Mr. Herrera,

Thank you for your follow up to our requested amendment to the registration certificates NR-0220-S-103-S and NR-0220-S-120-S. Please find our responses below.

1. Besides the change in the abbreviation of the engraving from "MDSN" to "NORD", please confirm that there are no changes to the engraving process.

Response - I confirm that there are no other changes to the engraving other than the manufacturers name.

2. Please confirm that the abbreviation change from "MDSN" to "NORD" also applies to the C-306 sealed sources registered in NR-0220-S-103-S.

Response - These changes do not apply to the C-306 sealed source. Only to the C-188 and C-198. Nordion does not currently manufacture and distribute the C-306 sources although there are likely some legacy sources still in use.

3. Please confirm that there have been no other changes to the C-188, C-306, or C-198 sealed sources.

Response - I confirm that there have not been any other changes to the aforementioned sources.

Should you have any questions, feel free to contact me.

Best Regards,

Greg Fulford
