Facility: <u>ANO-1</u>		Date of Examination: <u>8-22-2016</u>		
Item	Task Description	Initials		
		a	b*	ch
1. W R I T T E N	a. Verify that the outline(s) fit(s) the appropriate model, in accordance with ES-401 or ES-401N.	X	X	TF
	b. Assess whether the outline was systematically and randomly prepared in accordance with Section D.1 of ES-401 or ES-401N and whether all K/A categories are appropriately sampled.	X	X	TF
	c. Assess whether the outline over-emphasizes any systems, evolutions, or generic topics.	X	X	TF
	d. Assess whether the justifications for deselected or rejected K/A statements are appropriate.	X	X	TF
2. S I M U L A T O R	a. Using Form ES-301-5, verify that the proposed scenario sets cover the required number of normal evolutions, instrument and component failures, technical specifications, and major transients.	P	Rkm	TF
	b. Assess whether there are enough scenario sets (and spares) to test the projected number and mix of applicants in accordance with the expected crew composition and rotation schedule without compromising exam integrity, and ensure that each applicant can be tested using at least one new or significantly modified scenario, that no scenarios are duplicated from the applicants' audit test(s), and that scenarios will not be repeated on subsequent days.	P	Rkm	TF
	c. To the extent possible, assess whether the outline(s) conform(s) with the qualitative and quantitative criteria specified on Form ES-301-4 and described in Appendix D.	P	Rkm	TF
3. W A L K T H R O U G H	a. Verify that the systems walk-through outline meets the criteria specified on Form ES-301-2: (1) the outline(s) contain(s) the required number of control room and in-plant tasks distributed among the safety functions as specified on the form (2) task repetition from the last two NRC examinations is within the limits specified on the form (3) no tasks are duplicated from the applicants' audit test(s) (4) the number of new or modified tasks meets or exceeds the minimums specified on the form (5) the number of alternate path, low-power, emergency, and RCA tasks meet the criteria on the form.	P	Rkm	TF
	b. Verify that the administrative outline meets the criteria specified on Form ES-301-1: (1) the tasks are distributed among the topics as specified on the form (2) at least one task is new or significantly modified (3) no more than one task is repeated from the last two NRC licensing examinations	P	Rkm	TF
	c. Determine if there are enough different outlines to test the projected number and mix of applicants and ensure that no items are duplicated on subsequent days.	P	Rkm	TF
4. G E N E R A L	a. Assess whether plant-specific priorities (including PRA and IPE insights) are covered in the appropriate exam sections.	yes	Rkm	TF
	b. Assess whether the 10 CFR 55.41/43 and 55.45 sampling is appropriate.	yes	Rkm	TF
	c. Ensure that K/A importance ratings (except for plant-specific priorities) are at least 2.5.	yes	Rkm	TF
	d. Check for duplication and overlap among exam sections.	yes	Rkm	TF
	e. Check the entire exam for balance of coverage.	yes	Rkm	TF
	f. Assess whether the exam fits the appropriate job level (RO or SRO).	yes	Rkm	TF
a. Author	Printed Name/Signature Robert Postage / <u>John Cork</u> / <u>John W. Cork</u>	Date	5/20/16	
b. Facility Reviewer (*)	Randal Martin / <u>Rkm</u>	Date	5/20/16	
c. NRC Chief Examiner (#)	<u>Thomas Fajina</u> / <u>Thomas Fajina</u>	Date	7/7/14	
d. NRC Supervisor	<u>Vincent Gallego</u> / <u>Vincent Gallego</u>	Date	3/5/16

Facility: <u>AND Unit 1</u>		Date of Examination: <u>8/22/16</u>		Operating Test Number: <u>2016-1</u>	
1. General Criteria		Initials			
		a	b*	c#	
a.	The operating test conforms with the previously approved outline; changes are consistent with sampling requirements (e.g., 10 CFR 55.45, operational importance, safety function distribution).	P	Rkm	TF	
b.	There is no day-to-day repetition between this and other operating tests to be administered during this examination.	P	Rkm	TF	
c.	The operating test shall not duplicate items from the applicants' audit test(s). (see Section D.1.a.)	P	Rkm	TF	
d.	Overlap with the written examination and between different parts of the operating test is within acceptable limits.	P	Rkm	TF	
e.	It appears that the operating test will differentiate between competent and less-than-competent applicants at the designated license level.	P	Rkm	TF	
2. Walk-Through Criteria		-	-	-	
a.	Each JPM includes the following, as applicable: <ul style="list-style-type: none"> • initial conditions • initiating cues • references and tools, including associated procedures • reasonable and validated time limits (average time allowed for completion) and specific designation if deemed to be time-critical by the facility licensee • operationally important specific performance criteria that include: <ul style="list-style-type: none"> - detailed expected actions with exact criteria and nomenclature - system response and other examiner cues - statements describing important observations to be made by the applicant - criteria for successful completion of the task - identification of critical steps and their associated performance standards - restrictions on the sequence of steps, if applicable 	P	Rkm	TF	
b.	Ensure that any changes from the previously approved systems and administrative walk-through outlines (Forms ES-301-1 and 2) have not caused the test to deviate from any of the acceptance criteria (e.g., item distribution, bank use, repetition from the last 2 NRC examinations) specified on those forms and Form ES-201-2.	P	Rkm	TF	
3. Simulator Criteria		-	-	-	
The associated simulator operating tests (scenario sets) have been reviewed in accordance with Form ES-301-4 and a copy is attached.		P	Rkm	TF	
	Printed Name / Signature	Date

Facility: ANO Unit 1		Date of Exam: 8/22/16		Scenario Numbers: 1 - 5		Operating Test No.: 2016-1	
/QUALITATIVE ATTRIBUTES		Initials					
		a	b*	c#			
1.	The initial conditions are realistic, in that some equipment and/or instrumentation may be out of service, but it does not cue the operators into expected events.	P	Rkm	TF			
2.	The scenarios consist mostly of related events.	P	Rkm	TF			
3.	Each event description consists of <ul style="list-style-type: none"> the point in the scenario when it is to be initiated the malfunction(s) or conditions that are entered to initiate the event the symptoms/cues that will be visible to the crew the expected operator actions (by shift position) the event termination point (if applicable) 	P	Rkm	TF			
4.	The events are valid with regard to physics and thermodynamics.	P	Rkm	TF			
5.	Sequencing and timing of events is reasonable, and allows the examination team to obtain complete evaluation results commensurate with the scenario objectives.	P	Rkm	TF			
6.	If time compression techniques are used, the scenario summary clearly so indicates. Operators have sufficient time to carry out expected activities without undue time constraints. Cues are given.	P	Rkm	TF			
7.	The simulator modeling is not altered.	P	Rkm	TF			
8.	The scenarios have been validated. Pursuant to 10 CFR 55.46(d), any open simulator performance deficiencies or deviations from the referenced plant have been evaluated to ensure that functional fidelity is maintained while running the planned scenarios.	P	Rkm	TF			
9.	Every operator will be evaluated using at least one new or significantly modified scenario. All other scenarios have been altered in accordance with Section D.5 of ES-301.	P	Rkm	TF			
10.	All individual operator competencies can be evaluated, as verified using Form ES-301-6 (submit the form along with the simulator scenarios).	P	Rkm	TF			
11.	The scenario set provides the opportunity for each applicant to be evaluated in each of the applicable rating factors. (Competency Rating factors as described on forms ES-303-1 and ES-303-3.)	P	Rkm	TF			
12.	Each applicant will be significantly involved in the minimum number of transients and events specified on Form ES-301-5 (submit the form with the simulator scenarios).	P	Rkm	TF			
13.	The level of difficulty is appropriate to support licensing decisions for each crew position.	P	Rkm	TF			
Target Quantitative Attributes (Per Scenario; See Section D.5.d)		Actual Attributes		-	-	-	
1.	Malfunctions after EOP entry (1-2)	2/2/2/2/2	P	Rkm	TF		
2.	Abnormal events (2-4)	4/4/4/4/3	P	Rkm	TF		
3.	Major transients (1-2)	1/1/1/1/1	P	Rkm	TF		
4.	EOPs entered/requiring substantive actions (1-2)	2/1/1/1/1	P	Rkm	TF		
5.	EOP contingencies requiring substantive actions (0-2)	1/1/1/1/1	P	Rkm	TF		
6.	EOP based Critical tasks (2-3)	3/2/3/2/2	P	Rkm	TF		
NOTE:	* The facility signature is not applicable for NRC-developed tests. # Independent NRC reviewer initial items in Column "c"; chief examiner concurrence required.

1. Pre-Examination

I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of Aug 15 - Aug 22, 2016 as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC (e.g., acting as a simulator booth operator or communicator is acceptable if the individual does not select the training content or provide direct or indirect feedback). Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

2. Post-Examination

To the best of my knowledge, I did not divulge to any unauthorized persons any information concerning the NRC licensing examinations administered during the week(s) of 8/15 - 9/1. From the date that I entered into this security agreement until the completion of examination administration, I did not instruct, evaluate, or provide performance feedback to those applicants who were administered these licensing examinations, except as specifically noted below and authorized by the NRC.

1. Pre-Examination

I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of 8/22 - 9/1/16 as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC (e.g., acting as a simulator booth operator or communicator is acceptable if the individual does not select the training content or provide direct or indirect feedback). Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

2. Post-Examination

To the best of my knowledge, I did not divulge to any unauthorized persons any information concerning the NRC licensing examinations administered during the week(s) of 8-22-16. From the date that I entered into this security agreement until the completion of examination administration, I did not instruct, evaluate, or provide performance feedback to those applicants who were administered these licensing examinations, except as specifically noted below and authorized by the NRC.
