Yes;  
LC16 requires all sources to be registered which would require us to dispose of the source we have had for the last 8 years for our iSolo lab instrument; it needs to be removed.  
LC10 needs to permit us to use the sources anywhere in Buildings 1, 23, and 81.

If that is more confusing, you guys can call me at 303-497-6540.

Thomas –

My notes indicate that you need the following changes to your RAML. Can you please confirm or provide clarification. Thanks so much.

- Remove LC16 in its entirety allowing NIST to have custom sources
- Remove 1-5536A (Building 1 Room 5536A) from LC 10, leave Buildings 23 and 81, and add Building 1 to LC10
