Subject: RESP: FW: Amendment Request for Billings Clinic 25-01051-01

Good Morning Chris: It appears with Amendment No. 100 that a hard return was placed at the end of Item 9.F. "Knife" which in turn caused the system to automatically generate Item 9.G. "Perfection gamma stereotactic radiosurgery unit". I am working on issuing a corrected copy to Amendment No. 102 to correct this issue as we speak. Thank you so much for bringing this to our attention.

I will forward you an electronic copy via email, as appropriate.

Thanking you in advance for your understanding in this matter,

Jackie

Good Morning Carol, I noticed a small error in our license. Under 9. AUTHORIZED uses looks like G is an extra Gamma knife line and should be Y-90. We have a J use which should really be I under 6. I hope this is clear. If not please let me know.

Thank you
