TRAINING: No

REMARKS: IMC 0609 Appendix E Part 1, "Baseline Security Significance Determination Process for Power Reactors," has been revised to reflect minor editorial changes on pages 13 and 14 for clarity and alignment consistent with Figure 5- Unattended Opening Flowchart on page 23.

IP 71130.01, "Access Authorization," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.02, "Access Control," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.04, "Equipment Performance, Testing and Maintenance," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.05, "Protective Strategy Evaluation and Performance Evaluation Program," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.06, "Protection of Safeguards Information," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.07, "Security Training," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.08, "Fitness-for-Duty (FFD) Program," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.

IP 71130.14, "Review of Power Reactor Target Sets," has been revised to adjust the resource estimate to reflect the nominal number of inspection requirements as the target range for completion of this procedure as well as make minor administrative changes.
