To Whom It May Concern,

The Kansas State University Nuclear Reactor Facility (license number R-88, Docket No. ~~500228~~) has received a request for additional information, ML16189A194, dated August 11, 2016. This RAI was issued to address several questions about a license amendment request submitted on April 9, 2012, ML12109A063.

At this time I do not believe that the reactor facility will be able to submit a response to the RAI by the due date of 45 days following the date of issue. Therefore we request a 30 day extension to this deadline.
