NRC STAFF REVISED EXHIBIT LIST

Pursuant to the Commission's Scheduling Order of September 21, 2016, the staff of the U.S. Nuclear Regulatory Commission hereby provides in the Attachment to this filing its revised list of exhibits for the mandatory hearing for William States Lee III Nuclear Station, Units 1 and 2 (Lee). Exhibit NRC-009, the Final Safety Evaluation Report, has been revised to delete proprietary markings that were included erroneously. Exhibit NRC-014, the Staff Presentation for the Environmental Panel, has been revised to reflect the fact that the Forest Service's Special Use Permit for the compensatory mitigation site has not yet been issued. Corresponding changes were also made to Exhibit NRC-006, the Draft Record of Decision. The staff informed the applicant of these revisions, and the applicant has no objection to them. The staff has separately filed the revised exhibits as NRC-009-R, NRC-014-R, and NRC-006-R.
