

Regulatory Guide Periodic Review

RG Number: 3.67, Revision 1

Title: Standard Format and Content for Emergency Plans for Fuel Cycle and Materials Facilities

Office/Division/Branch: NMSS/FCSE/FMB

Technical Lead: Kevin Ramsey

Staff Action Decided: Reviewed with no issues identified

1. **What are the known technical or regulatory issues with the current version of the RG?**

There are no known issues with the current version of RG 3.67.

2. **What is the impact on internal and external stakeholders of not updating the RG for the known issues, in terms of licensing and inspection activities?**

As no technical or regulatory issues were identified, there is no impact to internal or external stakeholders resulting from these activities.

3. **What is an estimate of the level of effort needed to address identified issues in terms of FTE and contract dollars?**

As no technical or regulatory issues were identified, no resources are required.

4. **Based on the answers to the questions above, what is the staff action for this RG (Reviewed with no issues identified, Reviewed with issues identified for future consideration, Revise, or Withdraw)?**

Reviewed with no issues identified

5. **If a RG should be revised, provide a conceptual plan and timeframe to accomplish this.**

No issues were identified during the review.

NOTE: This review was conducted in September 2016 and reflects the staff's plans as of that date. These plans are tentative and subject to change.
