Dear Sir/Madame:

I am submitting a request to amend NRC license number 21-16339-01 on behalf of Sparrow Carson Hospital in Carson City, MI. We requested an expedited review due to urgent patient need.

Our Radiation Safety Officer, Donna Moyer, DO, resigned suddenly from her position. We did not have time to replace her before her departure. We have a physician on our licensee who has served as an RSO on a similar license in the past. We would like to name Adam Schwaderer, DO, as our Radiation Safety Officer. The license on which he was designated as RSO is Opdyke Diagnostic, Lic # 21-35020-01. His delegation of authority and supporting materials are attached.

If you have any questions regarding this change, feel free to contact our consulting physicist, Vince McCormick, at (734)395-9323 or v_mccormick@comcast.net.

Sincerely,

A handwritten signature in black ink that reads 'Matthew J. Thompson'.

From: Chief Executive Officer

Subject: Delegation of Authority

You, Adam Schwaderer D.O. have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of by product material by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. You are required to notify management if staff do not cooperate and do not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend 30 minutes per week conducting radiation protection activities.

I accept the above responsibilities.
