RE: Notification of transfer of generally licensed device to Agilent

I am writing to inform you that we have transferred for disposal the following LSC sealed source materials to RSO Inc, 5204 Minnick Road, Laurel, MD 20707:

Manufacturer	Model #	Serial#	Isotope	Activity, mCi
Beckman	LL3801	7013495	Cs-137	30

This device was transferred on September 8, 2016. Under current compliance and pursuant to 10 CFR31.5 paragraph (c) (2), (c) (3), and (c) (4), this device has been leaked tested for leakage of radioactive material and proper maintenance records.

If you have any further questions, please contact Ms. Kelly L. Petrillo, DuPont Wilmington Area Radiation Safety Officer, 302-451-4689, facsimile 302-451-4545, or by e-mail at Kelly.L.Petrillo@dupont.com.

NMSS10

Sincerely,

A handwritten signature in cursive script, reading "Kelly L. Petrillo". The signature is fluid and elegant, with a long horizontal stroke at the end.

Kelly L. Petrillo
DuPont Wilmington Area Radiation Safety Officer
