RE: NRC License No. 09-10672-03
C/N 591718

REC-101216AM0749

SUBJ: Additional Information Regarding Removal of BLDG 45 from NRC License No. 09-10672-03

Dear Mr. Lawyer:

In addition to the information provided in the survey package submitted on September 28, 2016, to remove Building 45 from the Gulf Ecology Division's NRC License, it is necessary to include the following information:

All radioactive material had been removed from Building 45 over five years ago.
Sealed sources containing Ni-63 did not leak while in use in Building 45.
Uranyl Acetate usage in Building 45 was possessed under a general license.

Thank you for reviewing our request to remove Building 45 from our license. Please feel free to contact David Beddick at (850) 934-9312 with any questions or concerns regarding this request.

Sincerely,

Sandy Raimondo, Ph.D.
Acting Division Director
