Dear Sir or Madam:

Henry County Memorial Hospital would like to amend its Byproduct Materials License, Number 13-17958-01, to remove authorization for the possession of gadolinium-153 permitted by 10 CFR 35.500. All such Gd-153 has been disposed of and we have no plans to use it in the future.

In addition, we request the removal of Drs. Randy Fields and Linda Lau from the license. Both have discontinued practice at our facility.

If there are any questions concerning this license amendment, please contact our nuclear medicine physicist, Mr. Patrick J. Byrne, at 734-717-8731.

Sincerely,

Gary Clarkson, RT(R)
Director of Radiology
