Subject: Model No. RAJ-II Acceptance Review Status

Lisa,

As we discussed on the phone today, I have a review team set up and an approved schedule to begin our acceptance review of the Model No. RAJ-II package.

I expect to issue any requests for supplemental information (RSIs) by mid-November and would request responses by early December.

Assuming we find the application acceptable after the RSI responses, we would send our first round RAI responses by early February 2017. Assuming we receive RAI responses by early March, we could issue the final CoC/SER by April.

I will be in touch with respect to how the acceptance review is going and our final proprietary review determination.

Thanks,

Huda
