

EXPORT LICENSE

FORM AEC-250
(8-70)

AEC LICENSE NO.

THIS LICENSE EXPIRES 1 September 1974

30-539

United States of America
Atomic Energy Commission

30-539

Pursuant to the Atomic Energy Act of 1954 and the regulations authorizing the export of the materials, and/or production or utilization facilities listed below, subject to the terms and provisions herein. The license to export extends to the licensee's duly authorized shipping agent.

LICENSEE

ULTIMATE CONSIGNEE IN FOREIGN COUNTRY

NAME **J. T. Baker Chemical Co.**
ADDRESS **222 Red School Lane
Phillipsburg, New Jersey 08863**

NAME **Richardson Merrell Moura**
Brasil S. A.
ADDRESS **Quilica E. Farmaceutica**
Av. Das Nações Unidas 591
Santo Amaro S. P., Brazil

INTERMEDIATE CONSIGNEE IN FOREIGN COUNTRY

OTHER PARTIES TO EXPORT

NAME
ADDRESS **NONE**

NONE

1.6

APPLICANT'S REF. NO. **92-301-2617-1**

COUNTRY OF ULTIMATE DESTINATION **Brazil**

QUANTITY DESCRIPTION OF MATERIALS OR FACILITIES

6 pounds of uranium as uranyl acetate.

Manager, Export Dept.
(Title of certifying official authorized to act on behalf of the applicant)

Instructions

The export of byproduct, source or special nuclear material is prohibited unless the exporter holds a specific AEC export license or, with respect to byproduct and source material, unless the exporter is authorized under a general AEC export license as provided in AEC regulations 10 CFR Parts 36 and 40. APPLICATION FOR A SPECIFIC AEC EXPORT LICENSE SHOULD BE FILED IN TRIPLICATE ON THIS FORM AEC-7.

Specific or general AEC export licenses cover only the byproduct, source or special nuclear material involved in the export. If such material is contained in instruments or devices, a license may also be required from the Department of Commerce covering the export of such instruments or devices.

Item 8(a) - State the amount of byproduct material in millicuries or curies (state which unit is used). State the weight of contained thorium and uranium in pounds or kilograms (state which unit is used) and the net weight of the shipment (for example, 10 pounds thorium contained in 250 pounds thorium magnesium alloy). State the weight of contained special nuclear material in parts or multiples of grams.

Item 8(c) - If the requirements of 10 CFR Part 71 ("Packaging of Radioactive Material for Transport") are not applicable to the packaging and transport of the byproduct, source or special nuclear material to be exported, or if the packaging and transport of such material is subject to a general license or is exempt from the provisions of 10 CFR Part 71, so indicate. Identify where applicable the specific AEC license and date of issuance authorizing, pursuant to 10 CFR Part 71, the delivery of such material to a carrier for transport. If a specific AEC license or an amendment to an existing license is required by 10 CFR Part 71 in connection with the packaging and transport of the material proposed to be exported, an application containing the information specified in 10 CFR § 71.21 should be submitted with Form AEC-7.

Item 9 - For special nuclear material, a statement of end use from the consignee must accompany this application.
