Gentlemen:

Enclosed is Revision 1 to IE Bulletin No. 80-19. The revision merely clarifies the areas of concern; therefore, the actions including dates of reports required by you with respect to your nuclear power facility is not changed.

In order to assist the NRC in evaluating the value/impact of each Bulletin on licensees, it would be helpful if you would provide an estimate of the manpower expended in conduct of the review and preparation of the report(s) required by the Bulletin. Please estimate separately the manpower associated with corrective actions necessary following identification of problems through the Bulletin.

Should you have any questions regarding the revised Bulletin or actions required by you, please contact this office.

Sincerely,

James P. O'Reilly
Director
