**PLEASE RESPOND BY:

COMSECY-16-0023

MEMORANDUM TO: Chairman Burns
Commissioner Svinicki
Commissioner Baran

FROM: Andrea Veil, Executive Director */RA/*
Advisory Committee on Reactor Safeguards

SUBJECT: REQUEST TO SOLICIT FOR THE APPOINTMENT OF A NEW
MEMBER ON THE ADVISORY COMMITTEE ON REACTOR
SAFEGUARDS (ACRS)

The purpose of this memorandum is to request approval to begin the solicitation for one new ACRS Member. The ACRS is currently staffed at 14 members out of a possible 15 allowed by the Atomic Energy Act. We are aware of one certain vacancy on the Committee in 2017. For this reason, and in consideration of overall ACRS succession planning, we are requesting that the Commission approve a solicitation for one vacancy at this time. Initiation of the solicitation process at this time should enable sufficient time for completion by spring of 2017.

Attached are a draft *Federal Register* notice and a draft Press Release that we propose to use to solicit qualified candidates for possible appointment to the ACRS.

For this position, a candidate must have extensive experience in nuclear power plant probabilistic risk assessment and risk management. Best qualified candidates will have at least 20 years of specific PRA and risk management experience, considerable broad experience and a distinguished record of achievement in one or more areas of nuclear science and technology or related engineering discipline(s). For additional information, please call me at 415-7360.
