Oconee Nuclear Station  
Docket Nos. 50-269, 50-270, 50-287  
McGuire Nuclear Station  
Docket Nos. 50-369 and 50-370  
Catawba Nuclear Station  
Docket Nos. 50-413 and 50-414

Gentlemen:

This supplemental response is submitted in order to clarify and expand the scope of the initial response addressing the "corrective steps" and the "date when full compliance will be achieved" which was indicated in Duke Power Company correspondence of August 10, 1987 and February 29, 1988.

The August 10, 1987 correspondence addresses the initial response to the following NRC Inspection Reports.

Oconee Nuclear Station  
NRC Inspection Report No. 50-269/87-24, 50-270/87-24, 50-287/87-24  
McGuire Nuclear Station  
NRC Inspection Report No. 50-369/87-20, 50-370/87-20  
Catawba Nuclear Station  
NRC Inspection Report No. 50-413/87-22, 50-414/87-22

The response to these reports included a safeguards training program directed to personnel with access to safeguards information.

The February 29, 1988 correspondence addresses the initial response to the following NRC Notice of Violation Report.

Notice of Violation and Summary of Enforcement Conference  
Catawba Nuclear Station  
NRC Inspection Report Nos. 50-413/87-43, 50-414/87-43  
McGuire Nuclear Station  
NRC Inspection Report Nos. 50-369/87-45, 50-370/87-45  
Oconee Nuclear Station  
NRC Inspection Report Nos. 50-269/87-50, 50-270/87-50, 50-287/87-50

The response to these reports included the distribution of a computer awareness handbook to personnel involved with the retrieval and storage of safeguards information via computers.

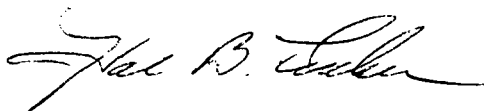

The actions to be taken in regard to all of the above inspection reports will be coordinated so that the handbook is compatible with the safeguards information training. The "Computer Awareness Handbook" will be expanded to address the entire company safeguards information procedure.

Some personnel have received safeguards information training and they will be issued a copy of the handbook. Other personnel who have not yet received the safeguards information training will review the handbook as part of their training.

The actions addressed above should be completed for existing employees by December 31, 1988.

This letter supersedes my correspondence of July 19, 1988 and should be appropriately docketed.

Very truly yours,

Hal B. Tucker
