Subject: Request for License Amendment.
License Number 42-27787-01, Licensee, PIKA International, Inc.
Docket Number 030-36709.

Reviewer: [Signature] Date: 10-19-2016

Dear Ms. Hill,

This amendment request is submitted to request the following changes to our license:

1. We would like to remove License Conditions **6D, 7D and 8D**, allowing possession of special nuclear material. We haven't encountered this material and would like to reduce the license fee associated with this material.
2. We would like to **separate and remove the D&D portion** of our license (decontamination and decommissioning of facilities, equipment, and containers) since we have not done any D&D work in close to the last two years and don't anticipate any this new fiscal year either. PIKA only has been doing the waste brokering (characterization, packaging, transportation and disposal) for our Government clients. PIKA is not using the D&D authorization and would like to save the license fee.

Please contact me if you would like more information concerning this request.

Thank you for your help with amendment request.

Sincerely,

Joel I. Cehn, RSO
