19600 E. 39th Street
Independence, MO 64057

Dear Dr. Lewis:

It has come to our attention that Amendment No. 65 to your NRC Material License No. 24-18655-01 dated October 14, 2016, contained an error in the authorization for Daniel Eric Hatfield, M.D.

Dr. Hatfield's authorization in Condition No. 12.B included authorization for the use of "materials in 10 CFR 35.300, limited to the oral administration of sodium iodide I-131."

The correct authorization for Dr. Hatfield should have been the use of "materials in 10 CFR 35.300, limited to the oral administration of sodium iodide I-131 **in quantities less than or equal to 33 millicuries,**" as it appeared on Amendment No. 64. No changes to his authorization were intended in Amendment No. 65.

Enclosed is a corrected copy reflecting the appropriate change to Dr. Hatfield's authorization.

We apologize for this error and for any inconvenience it may have caused you.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you have any other questions concerning this amendment please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is 630-515-1078.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

A. Lewis
