AEOD/T404

50-287

MEMORANDUM FOR: Karl V. Seyfrit, Chief  
 Reactor Operations Analysis Branch, AEOD

FROM: Matthew Chiramal  
 Plant Systems Unit, ROAB

SUBJECT: TECHNICAL REVIEW REPORT NO.  
 CABLE FIRE AND LOSS OF CONTROL POWER TO ENGINEERED  
 SAFEGUARDS (ES) VALVES

Forwarded herewith is the subject Technical Review Report. The review concludes that the event that occurred is probably unique and has no generic implications. The corrective actions taken by the licensee are adequate and no further action is required by us.

Matthew Chiramal  
 Plant Systems Unit, ROAB

Attachment:  
 As stated
