Dear Sir or Madam:

The Global Nuclear Fuel – Americas L.L.C. (GNF-A) facility in Wilmington, North Carolina hereby provides minor administrative updates to our approved SNM license application (Reference 1). The changes have been internally reviewed and documented as changes to license commitments not requiring prior NRC approval in accordance with SNM 1097 Section 1.3.1.2 and 10 CFR 70.72.

A description and reason for the change in each Chapter is provided in Attachment 1 to this letter to aid in the NRC Staff review.

Attachments 2 through 4 provide updates to Chapter 2, "Organization and Administration", Chapter 3, "Integrated Safety Analysis" and Chapter 4, "Radiation Safety". The revised sections are identified with a vertical line in the right hand margin on each revised page.

Please contact me on (910) 819-5950 if you have any questions or would like to discuss this matter further.
