Mr. Wilson,

This letter is being submitted as a follow-up to your telephone conversations with Kara Long on Wednesday, September 21, 2016 and Monday, October 17, 2016.

Ashland is converting to an LLC. On September 26, 2016 Ashland Inc. will change to Ashland LLC. The tax ID is not changing. The Ashland separation and restructuring will have no effect on the ownership of the company, or its assets and liabilities in any way that would influence the permit. This is primarily a change in name.

Ashland Inc. currently operates under the Materials License number 47-31073-01 for the Ashland Inc. facility in Kenova, West Virginia. Ashland Inc. requests that the NRC, Division of Nuclear Materials Safety, amend the said Materials License to change the legal name to Ashland LLC after the conversion on September 26, 2016. If you have any questions or concerns, please do not hesitate to contact me at (304) 528-2610 or [sddunsmore@ashland.com](mailto:sddunsmore@ashland.com).

Sincerely,

Steven Dunsmore  
Plant Manager
