In the Matter of  
Florida Power & Light Company  
(Turkey Point Units 6 and 7)  
Docket Nos. 52-040 and 52-041

Dear Administrative Judges:

During the prehearing conference on September 13, 2016, in response to the Licensing Board's direction, the NRC Staff committed to informing the Board and the parties to this proceeding when the final Environmental Impact Statement (EIS) on the Florida Power & Light combined license application became publicly available. Accordingly, the NRC Staff hereby informs the Board and parties that NUREG-2176, "Environmental Impact Statement for Combined Licenses (COLs) for Turkey Point Nuclear Plant Units 6 and 7," Final Report, is now publicly available in the NRC's Agencywide Documents Access Management System (ADAMS). The final EIS, NUREG-2176, is in four volumes, which are available from the NRC public website at ADAMS Accession Numbers ML16300A104 (Vol. 1), ML16300A137 (Vol. 2), ML16301A018 (Vol. 3), and ML16300A312 (Vol. 4).

Respectfully submitted,
