Docket No. 03001243
Control No. 591912

PLEASE CONFIRM RECEIPT OF THIS REQUEST FOR ADDITIONAL INFORMATION BY RETURN EMAIL

Dear Mr. Gantek,

This is regarding your request to amend License No. 06-00679-01 to add Kevin G. Kett, M.D. as an authorized user, remove Drs. Matthew Bushey and Peter Chien as authorized users, and to add a new temporary handling and storage of patient doses, storage of flood sources, and short term storage of radioactive waste. In order for us to continue our review of your request additional information is necessary.

1. Kevin G. Kett, M.D. is presently named as an Authorized User on Waterbury Hospital's license (License No. 06-02406-01) for 10 CFR 35.100 and 35.200 materials. Please confirm that you wish Dr. Kett be added to Saint Mary's License No. 06-00679-01 as an Authorized User for 10 CFR 35.100 and 35.200 materials.
2. You are requesting the addition of a modified dressing room be added as a location of use. On a detailed version of your facility diagram, please indicate the position of each of the areas described below.
 - a. Storage of radiopharmaceuticals (refrigerated and non-refrigerated)
 - b. Storage of radioactive waste, including decay-in-storage prior to disposal as nonradioactive waste
 - c. Preparation and dispensing of radiopharmaceuticals (e.g., lead glass L-block, etc.)

In addition, identify adjacent areas across the walls from use and storage locations and show that adequate steps have been taken to ensure that radiation levels in unrestricted areas will not result in doses to individual members of the public in excess of those specified in 10 CFR 20.1301.

We will continue our review upon receipt of the above requested information. Please contact Robert Gallagher at (610) 337-5182 with any questions.
