REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

OCT 28 2016

Michael A. Maloney
Radiation Safety Officer
Ontonagon County Road Commission
415 Spar Street
Ontonagon, MI 49953

Dear Mr. Maloney:

Enclosed is Amendment No. 3 to your NRC Material License No. 21-26441-01 in accordance with your request.

Please note that your license has been placed in standby pending disposal of your gauges and the termination of your license. After you have properly transferred all radioactive materials, you may request that your license be terminated. You may complete an NRC Form 314, "Certificate of Disposition of Materials," when requesting your license be terminated. For sealed sources that were transferred or disposed of as part of the close-out of this license, please provide a copy of the final leak test result for each sealed source; a copy of an acknowledgment of receipt from the licensed entity who took possession of each source, with an appropriate level of detail to identify the source and recipient; the NRC license number or copy of the Agreement State licensee that clearly shows it is licensed to receive your sources.

Please note that bills of lading, shipment manifests and shipping papers do not usually contain sufficient information to demonstrate that materials have been safely received by an appropriately licensed entity. They typically indicate that materials were prepared for shipment or transfer only, not that they were received and accepted into the recipient's inventory under its license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

M. A. Maloney

-2-

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer L. Bishop". The signature is written in a cursive style with a large initial "J".
