Dear Dr. Hannawa

Re: SIR-Spheres® Microspheres Training, Evaluation, Certification (TEC) Program

I am writing to confirm that on August 04, 2016 Dr. Fred Moeslein presented and discussed in detail the preparation and procedures associated with the treatment of patients with SIR-Spheres yttrium-90 microspheres that are injected via the hepatic artery to treat patients with unresectable liver tumors. The patients were treated with SIR-Spheres microspheres.

I am pleased to inform you that Dr. Fred Moeslein considers that you and your staff are now trained in the preparation and the clinical aspects of treating patients with SIR-Spheres microspheres.

This letter also certifies that you were proctored by a Sirtex certified proctor in the use of SIR-Spheres® microspheres for the required 3 cases or, if sufficiently pre-trained, at least one case was proctored.

I would like to thank you and your team for your support and commitment to the Sirtex **Training, Evaluation, Certification (TEC) Program**.

Yours sincerely,

Eric First, M.D.
