QUESTION NO.: 4 for JEXU-1041-1023, "Summary of MELTAC Platform Equipment Qualification," Rev.2

Per ISG-06, Section D.5.2 "Information to be Provided," states that the Summary of Testing Results should be provided during Phase 2 which requires submittal 12 months prior to requested approval. In light of MELCO's phased redevelopment of modules including redesign and testing, please identify when the test results will be submitted for all modules. Per the lack of information identified in the EQ Summary document as noted in RAI(s) 1 - 3 , the NRC may have to request the actual test procedures and reports to be submitted on the docket for the equipment qualification review.

ANSWER:
