Subject: Request to change isotopes on license.

Discussion: I discussed with Mr. Sullivan about removing the specific isotopes on his license that was < 120 days and atomic number 1 through 83 for incidentally activated products. They already have an allowance for this amount on their license and the number of isotopes was causing issues with the web based licensing program.

Mr. Sullivan email me back with an approval. The email was placed into records also.

Action Required: Remove specific isotopes of < 120 days of incidentally Activated Products.
