RE: Amendment RAM license #09-32781-02MD
Triad Isotopes, Inc.- Detroit
2252 East 14 Mile Road
Warren, MI 48092

Dear Mr. Null:

This letter is to provide additional information requested after phone call 11/3/2016 to clarify question 4 from letter dated 11/3/2016 pertinent to the Amendment Request for Radioactive Materials License 09-32781-02MD, Docket No. 030-38278.

Triad Isotopes is currently not requesting an increase in the already approved possession limit of 250 mCi of the current RAM license (Amendment 9). Typical prescribed dosage is up to 10 mCi. There is currently a low demand, if an increase in customer demand requires an increase in the authorized possession limit, a separate request will be made at that time.

Please contact Neil Stubbs, Pharmacy Safety Specialist, if you have any questions at 419-705-1359. A completed copy of the amendment request can be sent to the Triad Corporate offices ATTN: Legal at 4205 Vineland Road, Suite L1, Orlando, FL. 32811 and/or to the Warren pharmacy address to the RSO's attention.

Thanks,

Neil Stubbs, CNMT, RT(N)

Kevin,

Before I finalize the communication to you from our phone call last night wanting more detail for question 4, I thought I would email my draft response and see if that works for you.

Triad Isotopes is currently not requesting an increase in the already approved possession limit of 250 mCi of the current RAM license (Amendment 9). Typical prescribed dosage is up to 10 mCi. There is currently a low demand, if an increase in customer demand requires an increase in the authorized possession limit, a separate request will be made at that time.

If this is satisfactory I will place on letterhead and email to you.

Hi Neil,

Attached is the additional information that I need.

If you could possibly provide a response by COB tomorrow, that would be great.

Please prepare a letter response, with original signature.

Scan in the letter response and e-mail to me at kevin.null@nrc.gov.

Call or e-mail me if you have any questions.

Please confirm receipt of this e-mail.

Thanks,

Kevin Null
