Subject: Duke Power Company Topical Report,
Quality Assurance Program, Duke-1A

Gentlemen:

This letter is to request an extension for the annual review of the Quality Assurance Program required by 10CFR50.54(a).

During the performance of the annual review, Duke Power Company announced an evaluation of all work activities. This evaluation may result in some reorganization or realignment of activities relative to the Quality Assurance Program. Since this evaluation will not be completed in time to meet our annual review date, November 11, 1988, an extension is needed so any changes can be adequately addressed. Changes initiated from this evaluation, along with results from the required annual review, will be submitted for approval by January 31, 1989.

This above situation was discussed by G A Belisle (NRC Region II) and B R Justice (Duke Power Company) on October 17, 1988, and Mr. Belisle agreed an extension of the review period would be appropriate in this case.

We continue to acknowledge our obligation to inform the NRC of major organizational changes within thirty days and decreases in the Quality Assurance Program prior to implementation.

Respectfully Submitted,

G W Grier
Corporate QA Manager
