Re: Dockets 50-275-OL and 50-323-OL  
Diablo Canyon Site, Units 1 and 2

Dear Mr. DeYoung:

Enclosed are 30 copies of a document entitled "Information Required for Compliance with 10 CFR 50, Appendix I, for Diablo Canyon, Units 1 and 2." This submittal contains the information requested in Enclosure 2 to your letter of February 25, 1976. As indicated in our letter of April 21, 1976, this information and the information requested in Enclosure 1 to your letter will be included in the Final Safety Analysis Report by submittal of an amendment to our application by August 1, 1976.

Proposed Technical Specifications for Diablo Canyon have previously been submitted to the Regulatory Staff, and PG&E is working with the staff to develop Technical Specifications in final form. On May 17, 1976 we received guidance from the Regulatory staff for the formulation of Technical Specifications to implement Section V.B.2 of 10 CFR 50, Appendix I. We intend to continue to work with the staff to apply this guidance to the formulation of Technical Specifications.

Kindly acknowledge receipt of the above material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

*Philip A. Crane*
