Re: Dockets 50-275-OL
50-323-OL

Dear Mr. Parr:

Enclosed in support of our application for an operating license for Units 1 and 2 at the Diablo Canyon Site are ten copies of the velocity data related to the Western Geophysical Company offshore geophysical survey records submitted in our proprietary submittals dated November 12, 1975 and December 8, 1975. This material was requested informally by the Regulatory staff.

The enclosures contain proprietary geologic data, and it is requested that they be withheld from public disclosure pursuant to 10 CFR 2.790. This data was developed at considerable expense by original research work performed by Western Geophysical Company. It is of the type that company customarily maintains in confidence and withholds from public disclosure. The release of this proprietary data would grant competitors access to the information without incurring any expense.

Kindly acknowledge receipt of the above material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

Philip A. Crane, Jr.
